RE: Mandated RPM Limit

2017 TORC Rule Book Reminder:

Please be informed that you and your team are responsible for reading and knowing the 2017 TORC Rule Book.

2017 TORC Rule Book Update:

PRO 4

25.9.3.5 - Ignition - Distributor ignition with a single ignition coil or (8) 30-2853 - AEM individual coil or equivalent. Internal distributor pickup will be used for camshaft reference signal to ECU. Crankshaft reference sensor is open.

A Maximum RPM limit of 8200 for all engine manufactures will be in effect for the 2017 TORC season.

PRO 2

26.10.5 - A Maximum RPM limit of 8200 for all engine manufactures will be in effect for the 2017 TORC season.
